BEFORE AND AFTER PHOTOS TAKE

PATIENT DESCRIPTION:

Patient was seen today for scar camouflaging of her post-mastectomy scars. Patient presents with scarring to her right breast following a mastectomy procedure. Her doctor released and referred her to me for scar camouflage services. Procedure was performed in a doctor's office.

PROCEDURE DESCRIPTION:

I implanted pigment into the area that matched the patient's skin tone to reduce the appearance of her scars.

Patient's skin tolerated the treatment well.

Patient will need to be seen again in 6-8 weeks for another session.

PIGMENTS/INKS USED FOR PROCEDURE:

Nue Conceal #s 12, 14, 16, 17, 18 & Dilutant
